

TODOjet

Directly Print to Any Material

TODOjet is one of brands of Zhengzhou Domax Machinery Co.,Ltd. We focus on small UV flatbed printers and DTG printer, and integrate R&D/production/sales. Good sale models are TD-UV6090, TD-UV6040, TD-UV3050, and TD-TX3050.

Some of engineers in our company have more than ten years of printer experience in the industry, so good quality and after-sale service are guaranteed.

At present, our printers are sold to various countries in the world and get good feedback.

"Customer first" is our aim all the time. And try best to provide high-quality printers and service is our long-term pursuit. Give us a trust, return you many profits!

Good Working Performance

1 No pass line

Generally, swath boundaries are straight lines. Therefore, a slight misalignment between boundaries causes banding or uneven color printing. TODOjet printers reduces banding and uneven color printing with blurred boundaries similar to gradation printing.

2 Restore reality with colors

TODOjet

Others

High quality parts, famous ink supplier, and suitable ICC profile make every work perfect, it seems to restore the reality more vividly.

3 High resolution

Epson i3200 printhead is optional. With 3200nozzles and 2.5pl droplet, it's higher printing resolution. Especially, when printing pictures, person's pores and clothing texture are more clear.

Same size ink drop

5 Embossed effect and braille and matte effect

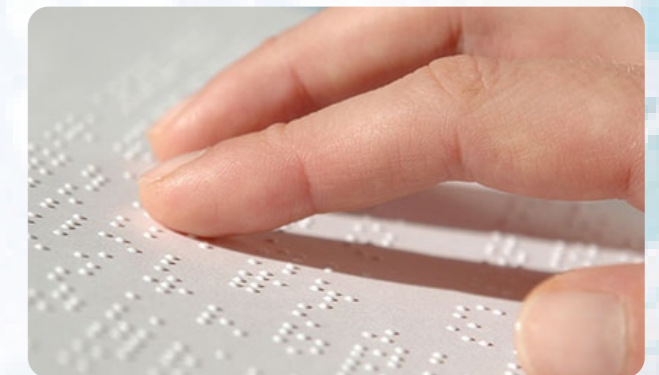

Embossed effect

TODOjet printers provides a gorgeous gloss finish and a stylish matte finish. Moreover, an embossed print is available by multiple applications of white ink or varnish ink on specific areas, and it adds a dimensional appearance to the print. Braille printing has a similar principle.
